HILL BECOMES A VOLCANO.

Fire and Smoke Pouring From a Mountain in Mexico.

There is no little consternation felt by the inhabitants of many towns in the remote south country of Mexico on account of showers of ashes falling in the extensive region from San Juan Bautista, capital of the state of Tabasco, as far north as Salina Cruz. It is believed that a hill near Palenque, where there is a great historic city in ruins, has suddenly been transformed into an active volcano. Both the other women mentioned as having died in Chapman's houses were his wives. The police have intimated that they might want to exhume the bodies.

While the police are not yet able to state whether Chapman is an American citizen, they are sure he resided in New York in 1893. Chapman, who has had a varied career, formerly described himself as an American.

GOVERNOR OF OREGON

Uses Pe-ru-na in His Family For Colds and Grip.

CAPITOL BUILDING SALEM, OREGON.

A Letter From the Executive Officer of Oregon.

Pe-ru-na is known from the Atlantic to the Pacific. Letters of congratulation and commendation testifying to the merits of Pe-ru-na as a catarrh remedy are pouring in from every State in the Union. Dr. Hartman is receiving hundreds of such letters daily. All classes write these letters, from the highest to the lowest.

The outdoor laborer, the indoor artisan, the clerk, the editor, the statesman, the preacher—all agree that Pe-ru-na is the catarrh remedy of the age. The stage and rostrum, recognizing catarrh as their greatest enemy, are especially enthusiastic in their praise and testimony.

Any man who wishes perfect health must be entirely free from catarrh. Catarrh is well-nigh universal; almost omnipresent. Pe-ru-na is the only absolute safeguard known. A cold is the beginning of catarrh. To prevent a cold, to cure a cold, is to cheat catarrh out of its victims. Pe-ru-na not only cures catarrh, but prevents. Every household should be supplied with this great remedy for coughs, colds and so forth.

The Governor of Oregon is an ardent

admirer of Pe-ru-na. He keeps it continually in the house. In a recent letter to Dr. Hartman he says:

STATE OF OREGON, EXECUTIVE DEPARTMENT, SALEM, May 9, 1898.

The Pe-ru-na Medicine Co., Columbus, O.: Dear Sirs—I have had occasion to use your Pe-ru-na medicine in my family for colds, and it proved to be an excellent remedy. I have not had occasion to use it for other ailments.

Yours very truly, W. M. Lord.

It will be noticed that the Governor says he has not had occasion to use Pe-ru-na for other ailments. The reason for this is, most other ailments begin with a cold. Using Pe-ru-na to promptly cure colds, he protects his family against other ailments. This is exactly what every other family in the United States should do. Keep Pe-ru-na in the house. Use it for coughs, colds, la grippe, and other climatic affections of winter, and there will be no other ailments in the house. Such families should provide themselves with a copy of Dr. Hartman's free book, entitled "Winter Catarrh." Address Dr. Hartman, Columbus, Ohio.
